

# Online safety at home

CCI Internet Safety Newsletter - Issue 3

## Top Tip!

Play games together with your child! You will get see how they are playing the game and any causes of concern.

## Spotlight on... Roblox

- Age rating is 7+
- There is a chat and party function where users can talk to any other users. There has been recent reports of adults pretending to be children and encouraging them to join in private chatrooms. You can set parental controls.
- There is the option to buy in app purchases for around £4.99 these are easy to buy without realising.
- There are games within Roblox based on 'ODers' meaning Online Dating Games where users can communicate in dating games within the Roblox platform.

## Hectors World Safety Button

There is a fantastic Internet Safety Website called 'Hector's World' it contains excellent video clips with Internet Safety messages, useful tips to remember in supporting children online. They also have a downloadable button you can install on your computer. It will always be on the screen and if your child feels worried about something they have read or seen they can press the button and it fills the screen with an lovely under the sea picture.

## Resource for Children

Interland is a brilliant new online game created by Google to help support children in understanding Internet Safety messages through a fun, interactive game!
